

PLANET OREGON

2017 PINOT NOIR

A PORTION OF PROCEEDS BENEFITS THE OREGON ENVIRONMENTAL COUNCIL

THINK PLANET. Planet Oregon Wines are a responsibly delicious choice. We farm our grapes sustainably, protecting streams and rivers from run-off that can harm fish and other wildlife. We monitor carbon emissions, energy use, and waste production to ensure the only mark we leave on this Planet is a wine stain or two.

DRINK OREGON. Oregon is a world renowned wine region in the beautiful Pacific Northwest. Our grapes are farmed in the Willamette Valley, a diverse landscape of rolling hills and ancient soils sandwiched between the Coastal and Cascade Ranges, a mere 30 miles to the Pacific Ocean. This is the New World's most promising wine region.

GIVE BACK. A portion of our profits from this bottling are donated to the Oregon Environmental Council. Their work ensures Oregonians live healthier lives because our air, water and land are cleaner; our food is sustainably produced; and the products, energy and transportation we rely on are safer for our environment.

TASTING NOTE

Classic Pinot Noir aromas of Bing cherry, ripe cranberry and a hint of cinnamon spice. Sappy, yet lithe on the palate, with fresh red fruits dominating a clean, mineral driven finish.

90 POINTS | JAMES SUCKLING.COM

VARIETAL COMPOSITION
100% OREGON PINOT NOIR

APPELLATION
100% WILLAMETTE VALLEY
