

## PLANET OREGON 2016 PINOT NOIR

Our mission is to craft and bottle delicious, young Pinot Noir that is meant to be enjoyed often and without pretense. We source grapes from certified sustainable vineyards, and we bottle our wine in a certified sustainable winery. We believe the time has come for Oregon winegrowing to become a beacon of best practices, and for consumers to exercise their choices based not only on taste and value, but also on the verifiable provenance of a product. \$1 of every bottle purchased in Oregon is donated to the **Oregon Environmental Council** as a testament to our unwavering commitment to the health and longevity of Oregon and the people who call it home.
